Roller200
GRAVITY ROLLER CONVEYOR

Designed to expand, contract and move easily, the Roller 200 is a self tracking, gravity roller conveyor that has a per lineal foot capacity of 200 pounds! This unit is engineered to handle odd shaped cartons, drums, pails and in low to medium volume applications. Four point leg connection is the strongest in the Industry!

The ALL-STEEL construction provides unmatched structural integrity, whether the conveyor is extended, contracted or configured in simple or compound curves. Adjustable inner legs vary height to achieve gravity flow. The Roller 200 is the choice for use in a variety of applications, packaging areas, assembly lines and in low to medium volume shipping and receiving departments.
